your bonus			

Either player can earn a bonus, and it pays even on a lost hand.

Announce after the opening reveals, before the first trick. An announced bonus that fails scores its 2 Victory Points for the opponent.

QUICK REMINDERS

Three piles of four sit in front of each player, top card of each turned before the first trick. The last card of a pile joins your hand unseen.

A revealed Tarok or King goes to your hand at once; anything else stays face up and counts as part of your holding. You may play a face-up card into any trick, and you must when the rules point at it. Turn the next before the trick goes on.
